This ebook will never be effortless to get started on studying but extremely fun to read through. It is actually written in easy phrases and never difficult to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.

Takes children on an imaginative journey, inviting their personal exploration of all aspects of nature - Presents a series of fantastic hypothetical questions that encourages children to imagine an intimate and playful relationship with the natural world - Contains vivid and intricate full-color illustrations to spark the imagination - For children ages 4 to 6 In How Would It Feel? Mary Beth Goddard takes children on a journey of fantastic proportions, inviting them to imagine a playful interaction with the natural world. How would it feel to ride on a breeze . . . splash down with the rain . . . play tag with the sun . . . or wake up in a flower? Children and parents alike will have an opportunity to view the world from widely varying perspectives, such as high in the sky or deep under the sea. But the final stanza provides reassuring closure, returning children to the safety of home: It s time to go back / to your own bed and rest, / back to the family / who loves you the best. The repeated poetic phrasing beginning each passage provides early reading skill development, and the vivid and intricate details in the watercolor artwork successfully extend and amplify the text, inviting many hours of exploration.
